Introducing a banking solution that simplifies your cash deposit process

mySBV.deposit

Why mySBV.deposit?

This innovative solution converts the manual cash banking process into an electronic format and removes the need for writing out deposit slips. You will capture your cash deposit information online and what you capture will be visible on your bank statement.

How does it benefit your business?

Convenience:

- Convert bank notes and coins into an electronic credit in a few easy steps.
- Capture cash deposit information and withdrawal requests on-line.
- Access to a secure, web-based solution that is easily accessible.
- Easy access to cash deposit data.
- Eliminates the need for a deposit book.
- A unique bank deposit reference can be recorded on a web application for easy reconciliation.
- A reconciliation web solution anticipates incoming deposits and detects changes in tamper-evident bag/seal number immediately.
- Easy access to cash deposit management information.
- No need to receive a deposit slip back from the bank.
- Save costs as there is no need to order deposit books.

End-to-end Solution:

SBV provides a Cash in Transit Service, a cash processing service and financial value to your nominated bank Account.

Speed of service:

- Receive value in your bank account for cash processed at a SBV centre - no hand overs.
- Quick and efficient service - one service provider; single premises.
- Cash banking is delivered to a SBV cash centre no matter who your banking partner is, or if you have multiple bank partners.

How does mySBV.deposit work?

- SBV will register you as a user on our web portal.
- You will be provided with a secure log-on to access the mySBV.deposit web page.
- A unique SBV tamper-evident bag bar code number or container seal number will be captured on the web page.
- Capture cash deposit information on the web portal as if you were completing a bank deposit slip.
- Capture your unique bank reference number i.e. what YOU want to see on your bank statement.
- Print a deposit slip from the web portal and place it in the bag.
- SBV will collect the sealed bag/container.
- On receipt of the bag/container at the SBV Cash Processing Centre, your deposit will be confirmed and released for credit to your bank account.
- Your cash transaction data is updated with each activity.

Contact us today to find out more about how this end-to-end-solution can help you focus on your core business while SBV takes care of your cash management needs.
